

Mohamed Elkomy

Data Scientist & Analyst

Profile

I'm a Data Analyst passionate about uncovering insights and solving complex business problems through data analysis. Interested in learning modern tools and techniques in the field, I apply them to build actionable dashboards and reports from tracking sales trends and optimizing revenue streams to leveraging predictive analytics for real-time decision support.

Education

Artificial Intelligence at Menoufia University , Menoufia

July 2022 - Present

Grade: Good

Internships

AI & ML at ITI, Menoufia

July 2025 - August 2025

Data Analysis at DEPI, Menoufia

July 2025 - Present • [↗](#)
