Mohamed Elkomy
Data Analyst

✉ mohamedelkomy367@gmail.com 📞 +201069705670 📍 Egypt in LinkedIn

Profile

I'm a Data Analyst passionate about uncovering insights and solving complex business problems through data analysis. Interested in learning modern tools and techniques in the field, I apply them to build actionable dashboards and reports — from tracking sales trends and optimizing revenue streams to leveraging predictive analytics for real-time decision support.

Skills

Data Analysis: python (Pandas, NumPy)

Visualization: Power Bi,Matplotlib,Seaborn

Data Processing & Bases: Excel, MySQL

Tools & Other: Jupyter, Data Cleaning,Statistical.

Languages : Arabic (Native)

English (B1 working to improve)

Career Objective

Final-year Artificial Intelligence student at Menoufia University, passionate about Data Science, Analytics, and AI. Currently enrolled in the "Digital Egypt Pioneers – Cohort 3" training program. Seeking an entry-level opportunity as a Data Analyst to apply analytical skills, gain real-world experience, and deliver actionable insights that support data-driven decisions.

EDUCATION

Faculty of Artificial Intelligence   2022 – 2026
Menoufia University
